RE: Phase II Storm Water Program – Requested Information from Brown County, WI

Dear Ms. Hyde:

On May 18, 2009, Brown County, Wisconsin, received a request from the Environmental Protection Agency (EPA) for two pieces of information in order for your office to complete the Brown County Notice of Intent (NOI) application for a National Pollutant Discharge Elimination System permit for storm water discharges from the portion of the Brown County Municipal Separate Storm Sewer System (MS4) located within the Oneida Nation Reservation. The original NOI was submitted to the EPA for review in 2006 and re-submitted without change in 2009.

The newly requested information was due to the EPA on July 2, 2009, however we had difficulty receiving the last of the EPA requested information from the Oneida Nation. A phone message was left with Mr. Brian Bell to inform your office about the necessary time-delay situation.

The following are our findings (see map and attachments):

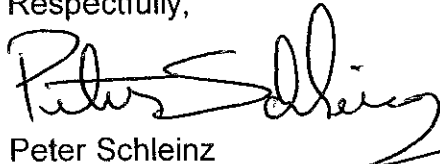

- Applicable permits or construction approvals related to Section §122.21(f)(6):
 - Brown County Highway Department – None
 - Brown County Facility and Park Management – None
 - Brown County Port & Solid Waste -- See below
 - Landfill
 - Sewer Permit – #418184-352
 - Scale License – 179283-VS
 - Air Permit – 405113940-P01
 - Industrial Waste Water Discharge Permit – Green Bay Metropolitan Sewerage District (GBMSD)
 - Transfer Station
 - Facility ID License – 405012740

- Solid Waste Operation License – #4289
- Driveway Permit
- DOT Permit for culvert installation in HWY right-of-way
- Austin Straubel International Airport – No response in relationship to list
- Discharges affecting federally-listed endangered species or historic properties:
 - U.S. Fish and Wildlife Service – No federally-listed species would be expected within the proposed project area
 - Oneida Tribal Historic Preservation Officer – No historic properties would be expected within the proposed project area

Please accept the enclosed duplicate copies for the purposes of the requested information in order to continue processing the Brown County, Wisconsin permit application. If you require additional information or clarification, please contact me at (920) 448-6480.

Thank you for your consideration in this matter.

Respectfully,

Peter Schleinz
Senior Natural Resource Planner
